

ELME in a box.

One part number - easy to order!

The Idea

The idea of ELME Servicebox is to facilitate service job and preventive maintenance of the spreader by boxing up selected genuine parts.

The Content

ELME Genuine Parts is our own range of approved spare parts and accessories - 100% made for your ELME spreader. ELME Servicebox contains all the genuine parts we consider needed to be replaced at service, together with a service manual.

ELME twistlock certificate
- guarantees quality

Immediate shipment
from stock

The Advantages

Preventive maintenance lowers downtime and the total cost of operation. Purchasing a servicebox together with an equipped machine ensures that the spreader continues to hold a high level in terms of its dependability and reliability.

ELME Servicebox line 2017

Since the release of the servicebox concept, we've broadened the range of boxes to now cover the majority of our truck spreaders. During year 2017, we'll add another 5 boxes to the assortment and do now offer an associated servicebox to most of our crane spreaders as well. Boxes are currently available for the following ELME spreader models:

Truck Spreaders	Crane Spreaders
Empty container 584LA, 584LB, 584LD, 586TB, 588TB	Laden container 8110/8215, 8110E/8215E, 8510/8615
Laden container 815/818, 817, 857
